QUARTERLY REPORT FOR THE THREE MONTHS ENDED SEPTEMBER 30, 2006

Nevada Copper Corp.
(formerly “Astron Resources Corporation”)

Management’s Discussion and Analysis
For the three months ended September 30, 2006

Nevada Copper Corp.
(formerly “Astron Resources Corporation”)
Management’s Discussion & Analysis
For the three months ended September 30, 2006, as of November 24, 2006

General

This Management’s Discussion and Analysis of Nevada Copper Corp. (the “Corporation”), formerly “Astron Resources Corporation”, has been prepared by management as of November 24, 2006 and should be read in conjunction with the Corporation’s audited annual financial statements and related notes for the year ended June 30, 2006 and the unaudited consolidated financial statement of the Corporation for the three months ended September 30, 2006. The comparative information as of June 30, 2006 and the corresponding period ended September 30, 2005 are those of 607792 British Columbia Ltd. which is identified as the continuing entity (notes 1 and 2). All amounts are expressed in Canadian Dollars unless otherwise indicated. Subsequent to September 30, 2006 Astron Resources Corporation changed its name to Nevada Copper Corp. and commenced trading under the new symbol of “NCU” on November 16, 2006. The Corporation also continued into British Columbia under the Business Corporations Act (British Columbia) on November 16, 2006.

Forward-Looking Statements

Certain statements contained in the following Management’s Discussion and Analysis may be deemed forward-looking statements. All statements other than statements of historical facts, including the likelihood of commercial mining and possible future financings are forward-looking statements. Although the Corporation believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include unsuccessful exploration results, changes in commodity prices, changes in the availability of funding for mineral exploration, unanticipated changes in key management personnel and general economic conditions. Mining is an inherently risky business. Accordingly the actual events may differ materially from those projected in the forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statements were made, and readers are advised to consider such forward-looking statements while considering the risks set forth below.

Description of Business

The Corporation is an exploration stage mining company engaged in the identification, acquisition and exploration of copper and other mineral properties located in the United States.

The Corporation was incorporated on June 16, 1999, under the Business Corporations Act of the Yukon as African Venture Corporation and changed its name to Astron Resources Corporation on July 23, 1999. The Corporation was classified as a Capital Pool Company (“CPC”) as defined by the policies of the TSX Venture Exchange (“TSX-V”). The Corporation was listed on the TSX-V in August 1999 and was required to complete its Qualifying Transaction within eighteen months of listing. On October 4, 2002, trading of the Corporation’s shares was suspended due to failing to complete its Qualifying Transactions within eighteen months of listing. Effective February 18, 2004, the Corporation was transferred from the TSX-V to the NEX Board and re-instated for trading.

On August 15, 2006, the Corporation acquired its subsidiary of 607792 British Columbia Ltd. (“607792 BC”), a British Columbia incorporated company, through an exchange of shares and completed its Qualifying Transaction and commenced trading on the TSX-V on August 17, 2006. Subsequent to September 30, 2006 the Corporation changed its name to Nevada Copper Corp. and commenced trading under the new symbol of “NCU” on November 16, 2006. Also subsequent to September 30, 2006, the Corporation continued in British Columbia under the Business Corporations Act (British Columbia).

The principal asset of the Corporation is a 100% interest in the Pumpkin Hollow Copper Development Property located in north-western Nevada, approximately one hundred miles southeast of Reno. The properties are located

within a contiguous 11 square-mile land package held by the Corporation comprised of patented and unpatented claims. Pumpkin Hollow has a well-documented history with over 590,000 feet of drilling completed by several major mining companies. In addition, the project benefits from various levels of historic mine design, metallurgical evaluations and baseline studies that have been completed.

Overall Performance

Since the acquisition of 607792 BC on August 15, 2006 the Corporation has embarked on a systematic fast-track program to develop its 100% owned Pumpkin Hollow Copper Development Property located in Nevada.

Previous drill programs assayed for gold, silver and molybdenum on a very limited basis and historic results suggest the potential to add metal credits to the current resource estimate. The Corporation has initiated an assay program that will make use of samples collected during previous drill programs, and will assay for gold, silver and molybdenum. Added metal credits would enhance project economics, currently based on only the copper and iron resources.

The assay program will consist of at least 4,000 samples, and will focus on the higher grade portions of the Pumpkin Hollow resources, affecting over half of the known resources. Following completion of the assay program, the geologic model and resource estimate will be updated.

Concurrent with the assay program the Corporation will conduct a confirmation and expansion drilling program at Pumpkin Hollow. The initial drill campaign is expected to consist of 40,000 feet of drilling and is scheduled to commence in November of 2006.

Results from both the drilling program and assay program are designed to enhance the property's economics and resources. The Corporation plans to utilize these new assay results and drill data when advancing the property into feasibility during 2007.

Selected Information

The following table sets forth selected consolidated annual financial information of the Corporation for, and as of the end of, September 30, 2006. The selected consolidated financial information should be read in conjunction with the Consolidated Financial Statements of the Corporation.

	September 30, 2006	June 30, 2006
		(Note 2)
	\$	\$
Net loss	(1,476,206)	(77,986)
Net loss per share	(0.10)	(0.00)
Total cash and cash equivalents	4,666,601	344,716
Working capital	4,617,085	282,640
Total liabilities	123,529	65,021
Total assets	5,319,963	756,213
Shareholders' equity	5,196,434	691,192

Results of Operations

For the period ended September 30, 2006, the Corporation had a net loss of \$1,476,206 or \$0.10 per share. General Administration and Exploration Office expenses totaled \$139,330. Stock-based compensation of \$1,359,230 was recognized for options granted to directors and employees representing a significant portion of the loss in the period. A total of \$245,778 was spent in property acquisition and exploration related activities. Short-term investments generated interest income totaled \$22,354.

Summary of Quarterly Results

Selected consolidated financial information for the most recently completely quarters are as follows:

	Interest income	Net loss	Net loss per share
	\$	\$	\$
September 30, 2006	22,354	(1,476,206)	(0.10)

June 30, 2005	-	-	-
March 31, 2005	-	-	-
December 31, 2004	-	-	-

Reference is made to note 2 of the consolidated financial statements.

Liquidity and Capital Resources

On August 15, 2006, the Corporation acquired 100% of the issued and outstanding shares of 607792 British Columbia Ltd. ("607792 BC"), a British Columbia incorporated company, from the shareholders of 607792 BC in exchange for 17,180,000 common shares and 4,800,000 special warrants of the Corporation. Each special warrant entitles the holder to acquire one common share for no further consideration for a period of ten years. 607792 BC has a lease of certain patented mining claims in Nevada known as the Pumpkin Hollow Copper property.

The Corporation also completed a \$5,000,000 private placement on a brokered basis concurrent with the acquisition above, consisting of 5,000,000 units issued at a price of \$1 per unit. Each unit consisted of one common share and one share purchase warrant with each warrant exercisable into one additional common share at a price of \$1.50 per share for a period of two years. Pacific International Securities Inc. (the "Agent") received a finance fee and commissions of \$123,422 and 286,578 units having the same terms as above. The Agent also received a compensation option exercisable for 400,000 common shares at a price of \$1.05 per share for a period of two years. In consideration for facilitating the acquisition for the Corporation, the Agent also received 300,000 common shares of the Corporation as a finder's fee.

Off-Balance Sheet Arrangements

The Corporation has no off-balance sheet arrangement.

Transactions with Related Parties

None.

Controls and Procedures

The Chief Executive Officer and Chief Financial Officer have instituted a system of disclosure controls for the Corporation to ensure proper and complete disclosure of material information. The limited number of employees within the Corporation facilitates access to real time information about developments in the business for the person responsible for drafting disclosure documents. All documents are circulated to responsible members of management and the board of directors according to the disclosure time-lines contained within the disclosure policy. The disclosure controls conform with the Corporation's Corporate Governance policies.

The Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the Corporation's disclosure controls and procedures have concluded that, as of such date, the Corporation's disclosure controls and procedures were effective to ensure that material information relating to the Corporation was made known to them by others within the Corporation during the period.

Critical Accounting Estimates and Risk Factors

Critical accounting estimates used in the preparation of the financial statements include the Corporation's estimated net recoverable value of these mineral properties. The business of mineral exploration and extraction involves a high degree of risk since very few properties that are explored and developed ultimately achieve commercial production. At present, none of the Corporation's properties have a known body of commercial ore.

The Corporation's impairment determination and resulting estimated net recoverable value on its mineral projects are based on estimated underlying mineral resources associated with the properties and future costs that may be required for ultimate realization through mining operations or by sale. The Corporation is in an industry that is exposed to a number of risks and uncertainties, including exploration, development, commodity, operating, ownership, political, funding, currency and environmental risk. While factoring these risks the Corporation has relied on very preliminary resource estimates on its properties, however, these estimates include assumptions that are potentially subject to significant changes that are not yet determinable. Accordingly, there is always the potential for a material change to the presentation in the financial statements relating to the carrying value of the Corporation's mineral properties.

Financial Instruments and other Instruments

The Corporation has not entered into any specialized financial agreements to minimize its investment, currency or commodity risk. There are no off-balance sheet arrangements. The principal financial instruments affecting the Corporation's financial condition and results of operations is currently its cash and cash equivalents.

Other Requirements

Additional disclosure pertaining to the Corporation's technical report, management information circulars, material change reports, press releases and other information are available on the SEDAR website at www.sedar.com.

On behalf of the Board of Directors,

"Giulio T. Bonifacio"

Giulio T. Bonifacio,
President & Chief Executive Officer

Nevada Copper Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In Canadian Dollars)

For the three months ended September 30, 2006 (Unaudited – Prepared by Management)

1. NATURE OF OPERATIONS AND CONTINUANCE OF BUSINESS

Nevada Copper Corp. (the “Corporation” or “Nevada Copper”), formerly “Astron Resources Corporation”, is an exploration stage mining company engaged in the identification, acquisition and exploration of copper and other mineral properties located in the United States.

Nevada Copper was incorporated on June 16, 1999, under the Business Corporations Act of the Yukon as African Venture Corporation and changed its name to Astron Resources Corporation on July 23, 1999. The Company is classified as a Capital Pool Company (“CPC”) as defined by the policies of the TSX Venture Exchange (“TSX-V”). The Company was listed on the TSX-V in August 1999 and was required to complete its Qualifying Transaction within eighteen months of listing. On October 4, 2002, trading of the Company's shares was suspended due to failing to complete its Qualifying Transactions within eighteen months of listing. Effective February 18, 2004, the Company was transferred from the TSX-V to the NEX Board and re-instated for trading.

On August 15, 2006, Nevada Copper acquired its subsidiary of 607792 British Columbia Ltd. (“607792 BC”), a British Columbia incorporated company, through an exchange of shares and completed its Qualifying Transaction and commenced trading on the TSX-V on August 17, 2006. As the transaction constitutes a reverse takeover (“RTO”), these consolidated financial statements are a continuation of the historical financial statements of 607792 BC as it is identified as the continuing entity.

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles with the assumption that the Corporation will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation.

The Corporation’s continuing operations are dependent upon its ability to either secure additional equity capital or generate cash flow from operations in the future. These consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets and liabilities that might be necessary, should the Corporation be unable to continue as a going concern.

To date, the Corporation has not earned significant revenues and is considered to be in the development stage.

2. BASIS OF PRESENTATION

These financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles for interim financial reporting, and the accounting policies used are consistent with the most recent annual audited financial statements of Nevada Copper. The comparative figures as at June 30, 2006 and the corresponding period ended September 30, 2005 are those of 607792 BC (unaudited) pursuant to continuity of interests accounting requirements described in note 1. While these financial statements reflect all normal recurring adjustments which are, in the opinion of management, necessary for fair presentation of the results of the interim period, they do not include all of the information and notes required by Canadian generally accepted accounting principles for financial statements. These unaudited consolidated financial statements should be read in conjunction with the Nevada Copper’s annual audited consolidated financial statements for the year ended June 30, 2006.

3. ACQUISITION OF 607792 BC AND CONCURRENT TRANSACTIONS

On August 15, 2006, the Corporation acquired 100% of the issued and outstanding shares of 607792 British Columbia Ltd. (“607792 BC”), a British Columbia incorporated company, from the shareholders of 607792 BC in exchange for 17,180,000 common shares and 4,800,000 special warrants of the Corporation. Each special warrant entitles the holder to acquire one common share for no further consideration for a period of ten years. 607792 BC has a lease of certain patented mining claims in Nevada known as the Pumpkin Hollow Copper property.

Nevada Copper Corp. (formerly "Astron Resources Corporation")

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In Canadian Dollars)

For the three months ended September 30, 2006 (Unaudited – Prepared by Management)

3. ACQUISITION OF 607792 BC AND CONCURRENT TRANSACTIONS (Continued)

The Corporation also completed a \$5,000,000 private placement on a brokered basis concurrent with the acquisition above, consisting of 5,000,000 units issued at a price of \$1 per unit. Each unit consisted of one common share and one share purchase warrant with each warrant exercisable into one additional common share at a price of \$1.50 per share for a period of two years. Pacific International Securities Inc. (the "Agent") received a finance fee and commissions of \$123,422 and 286,578 units having the same terms as above. The Agent also received a compensation option exercisable for 400,000 common shares at a price of \$1.05 per share for a period of two years. In consideration for facilitating the acquisition for the Corporation, the Agent also received 300,000 common shares of the Corporation as a finder's fee.

4. INVESTMENTS

The Company holds 900,000 (June 30, 2005 – 1,000,000) common shares of Pak-It Technologies Inc., a private company, which are carried at a nominal value of \$1. The fair value of the shares is not yet determinable.

5. MINERAL PROPERTIES

Pumpkin Hollow Copper Development Property

The principal asset of the Corporation is a 100% interest in the Pumpkin Hollow Copper Development Property located in north-western Nevada, approximately one hundred miles southeast of Reno. The properties are located within a contiguous 11 square-mile land package held by the Corporation comprised of patented and unpatented claims. Pumpkin Hollow has a well-documented history with over 590,000 feet of drilling completed by several major mining companies. In addition, the project benefits from various levels of historic mine design, metallurgical evaluations and baseline studies that have been completed.

Costs capitalized as of September 30, 2006 consisted of the following:

	June 30, 2006	Additions	September 30, 2006
	\$	\$	\$
Property payments	90,722	33,948	124,670
Claim staking	20,222	74,046	94,268

7. SHARE CAPITAL

Authorized

The Corporation is authorized to issue an unlimited number of common shares without par value.

Issued	Number of	Amount
	Common Shares	\$
Balance, June 30, 2006	4,256,600	553,592
Elimination of Nevada Copper share capital on RTO	-	(553,592)
Shares issued as finder’s fee for acquisition	300,000	-
Shares issued on RTO	22,466,578	-
Substitution of 607792 BC’s share capital on RTO	-	5,158,068
Balance, September 30, 2006	27,023,178	5,158,068

On August 15, 2006, the Corporation has completed the acquisition of 100% of the outstanding common shares of 607792 British Columbia Ltd. (“607792 BC”) in exchange for an aggregate of 17,180,000 common shares of Nevada Copper and 4,800,000 special warrants. Each special warrant entitles the holder to acquire one common share of Nevada Copper for no additional consideration for a period of 10 years from the closing. An aggregate of 14,516,800 of these common shares and the 4,800,000 special warrants are subject to escrow restrictions in accordance with the rules of the TSX Venture Exchange. Nevada Copper also issued 300,000 common shares to Pacific International Securities Inc. as a finder’s fee in respect of the acquisition of 607792 BC.

In addition, Nevada Copper has completed a concurrent brokered private placement (the “Financing”) through Pacific International Securities Inc. (the “Agent”) raising gross proceeds of \$5,000,000 by the issuance of 5,000,000 units (the “Units”) at a purchase price of \$1.00 per Unit. Each Unit consists of one common share (“Common Share”) of Nevada Copper and one non-transferable share purchase warrant (“Warrant”). Each Warrant is exercisable to acquire one common share (“Warrant Share”) at an exercise price of \$1.50 per share until August 15, 2008. Nevada Copper also paid the Agent a corporate finance fee of \$10,000 plus GST, a commission of \$113,422 paid in cash and 286,578 Units having the same terms as those distributed under the Financing, and 400,000 compensation options that are exercisable into 400,000 common shares of the Company at an exercise price of \$1.05 per share until August 15, 2008. All of these securities are subject to a four month hold period expiring on December 16, 2006.

Options

The Corporation grants incentive stock options as permitted pursuant to the Corporation’s Stock Option Plan (the “Plan”) approved by Nevada Copper’s shareholders on December 7, 2005 and subsequently approved by the Corporation’s shareholders on November 3, 2006. The Plan has been structured to comply with the rules of the Toronto Stock Venture Exchange (“TSX.V”). The aggregate number of common shares which may be subject to option at any one time may not exceed 10% of the issued common shares of the Corporation as of that date including options granted prior to the adoption of the Plan. Options granted may not exceed a term of 5 years, and the term will be reduced to one year following the date of death. If the Optionee ceases to be qualified to receive options from the Corporation those options shall immediately expire. All options vest when granted unless otherwise specified by the Board of Directors.

Nevada Copper Corp. (formerly "Astron Resources Corporation")

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In Canadian Dollars)

For the three months ended September 30, 2006 (Unaudited – Prepared by Management)

7. SHARE CAPITAL (continued)

During the period the Corporation granted 2,629,000 options to employees and officers and recorded \$1,359,230 as stock-based compensation expense.

	Number of Options	Exercise Price	Expiry Date
Balance, June 30, 2006	-	-	
Agent option issued on financing	400,000	\$1.05	August 15, 2008
Granted to employees and officers	2,629,000	\$1.00	August 15, 2011
Balance, September 30, 2006	3,029,000	\$1.01	

The Corporation uses the Black-Scholes option pricing model to value stock options which requires management to make estimates that are subjective and may not be representative of actual results. Changes in assumptions can materially affect estimates of fair values. For purposes of the calculation, the following assumptions were used in deriving the weighted average fair value of \$0.52 per option:

Risk free interest rate	4.19%
Expected dividend yield	0%
Expected stock price volatility	55%

Warrants

Warrants issued and exercised during the period are as follows:

	Number of Warrants	Exercise Price	Expiry Date
Balance, June 30, 2006	-	-	
Warrants issued on financing	5,286,578	\$1.50	August 15, 2008
Special warrants issued on RTO	4,800,000	\$0.00	August 15, 2011
Balance, September 30, 2006	10,086,578	\$0.79	

The following table summarizes the share purchase warrants outstanding and exercisable as at September 30, 2006:

Number of warrants	Exercise Price	Expiry Date
5,286,578	\$1.50	August 15, 2008
4,800,000	Nil	August 15, 2011
10,086,578	\$0.79	

Securities held in escrow

At September 30, 2006, 19,566,800 shares of the 22,466,578 securities issued to acquire 607792 BC remained in escrow and are subject to further release for a period of up to six years from the date of the acquisition on August 15, 2006.

Nevada Copper Corp. (formerly “Astron Resources Corporation”)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In Canadian Dollars)

For the three months ended September 30, 2006 (Unaudited – Prepared by Management)

8. CONTRIBUTED SURPLUS

Contributed surplus arose from the following items:

	<u>2006</u>
	\$
Balance, June 30, 2006	107,800
Elimination of Nevada Copper Contributed Surplus on RTO	(107,800)
Acquisition warrant and option valuation on RTO	227,735
Stock-based compensation	<u>1,359,230</u>
Balance, September 30, 2006	<u>1,586,965</u>

9. SEGMENTED INFORMATION

The Corporation operates in the single business segment of mineral exploration and development in the USA.

The Corporation operates in two geographic segments. The accounting policies of the segments are the same as those described in Note 1 and Note 2.

Geographic distribution of operating results in the two geographic segments is as follows:
